

# VOIP TELEPHONES

**Savings and features - now that's a deal!**

- ★ **PRICE:** Plans start at \$19.95 for unlimited calling (no hidden charges)
- ★ **SCALABILITY:** Whether you have only one line or dozens of internal extensions, we can customize the right system for you
- ★ **FEATURES:** digital receptionist, extensions, call groups, call forwarding to mobile number, call waiting, call recording, virtual fax, music on hold, 800 & vanity numbers, mobile app, conference calls, interoffice announcements, web portal customizations, and more
- ★ **TONE CLARITY:** Digital phones provide better sound quality with less interference
- ★ **EASILY CONFIGURABLE:** Most configurations are done from a web portal - intuitive, on the fly
- ★ **PORTABILITY:** All configurations are saved with the user extension. If you move offices or rearrange personnel, all you have to do is plugin your phones at the new location and everything will operate as before
- ★ **TELEPHONE EQUIPMENT:** Our phones get power over Ethernet (POE), no need for additional power adapters. Large phone selections from top vendors with a choice of leasing the phones (with full warranty) or purchasing them upfront

We are registered partners with top VOIP vendors. You receive direct, transparent billing from the provider.

You will have a choice between pure cloud VOIP platforms, or digital PBX-like systems with dozens of internal extensions.

Purchasing through us gives you the advantage of our combined support for all your devices!
