

CASH DISCOUNT MERCHANTS

A growing trend in our industry, cash discount pricing allows you to eliminate merchant processing fees altogether. There are many organizations who push this method as “zero-cost” processing, however, that is not entirely accurate. Cash discounting requires you, the merchant, to charge a processing fee to your customer, which covers your cost of accepting credit cards.

If you are tired of paying thousands in monthly processing fees, cash discounting may be the program for you!

WHY CHOOSE LEVEL 3?

- Local account representative

- Point of Sale Solutions—Clover, ShopKeep, & many others
- Custom Software Integrations
- ACH and Check Processing

BUSINESS-TO-BUSINESS MERCHANTS

We use a method of payment processing called Level 3 Processing, and we love it so much that we named ourselves after it.

Level 3 Processing is a method of accepting payments that attaches additional information to your transaction, qualifying you for lower rates from Visa and MasterCard. Whether you process payments in a virtual terminal, on your website, or on the go, you will enjoy reduced rates of up to 30% on qualifying transactions.

Please see the table below for an example:

Card Type	Amount	Standard Interchange	Level 3 Interchange	Savings
MasterCard Fleet	\$5,000	2.70%	1.90%	\$40
Visa Purchasing	\$10,000	2.70%	1.90%	\$80

RETAIL & RESTAURANT MERCHANTS

We offer multiple product and pricing options for our retail merchants. Whether you need mobile, point-of-sale, or e-commerce technology, we have the product for you. We have access to thousands of software integrations that will work seamlessly with your current solutions.

Our merchants set their own rate. Whether it be convenient flat rate pricing or interchange-plus, we provide the tools to help your business save money and be more efficient.
