

Servers, Computers, Software

Your Computers Will Work. No Excuses

Lenovo

★ TechSystems USA is a registered partner & reseller for most major computer hardware vendors.

★ We provide inventory purchasing, vendor warranty support, and after warranty support.

- ★ We comply with MSRP prices (manufacturer's suggested retail price) so you receive optimized hardware at **maximum savings**.
- ★ Engineers are trained & certified to **diagnose and fix** hardware and software issues, replace or **upgrade** hardware components.
- ★ We support computers running all popular Operating Systems: Windows, macOS, Linux.
- ★ As new technologies emerge we will consult you on how we can revive existing computers and make them run at productivity speed again.

With us you can finance the purchase or the upgrade of the hardware with no upfront costs - computers, mobile devices, printers, servers, including the labor required to configure & install them. This saves your Cash on Hand while allowing your business to keep all hardware within vendor warranty recommendations.

As a partner with VMware we will support your local servers on **virtual machines** or move them to the cloud.

To eliminate the high costs of hardware renewals, we can consult you and move your servers to the **cloud on AWS**.

With our support, there is a guaranteed 99.99% up-time, with no need to keep purchasing expensive hardware.

All costs are reduced to a manageable monthly fee. Additional savings come with a 3 year contract.

Microsoft

⇒ We are a registered partner & reseller for most major software vendors.

⇒ We monitor & support all server and end users **software licenses** - enterprise, educational, and volume licensing.
