

# Hardware & Software Purchasing

**We can help you make the expert choice**

1. First, we help you pick the optimal options for new computers:

- Form factor, Processor type, RAM memory, disks, SSD disk types & sizes, display card options, battery cells, warranty types.
- On premise or hosted? AWS, Azure, or Google Cloud? ... ..

2. Then, we walk you through the software versions & licensing options: M365 Business Basic ... Standard ... Premium or only M365 Apps for Business? Google Workspace for Business Starter ... Standard ... Plus ... or Enterprise? License types? Stand-alone or hosted? ... ..

We do the background research for you:

- We are a registered reseller with all major hardware and software vendors.
- Our staff is trained to help you make an informed decision so you can get the best value for your investment.
- We can handle all of your hardware & software purchasing, warranty claims, inventory tracking, configuration choices, application licenses, educational and volume licensing.

With us, you can finance the purchase or the upgrade of any hardware with no upfront costs - computers, mobile devices, printers, servers, including the labor required to configure & install them. This saves your Cash on Hand while allowing your business to keep all hardware within vendor warranty recommendations.
