

Email Hosting & Cloud Collaboration

Electronic Communications at the Speed of Business

Impression at first sight starts with your email domain.

We can handle your domain registration and set up professional email hosting.

There are mainly two choices for business email hosting - Microsoft or Google, and the price tags are similar!

- Google Workspace Pro (Email, apps, 2TB storage) = \$14.95/mo
- M365 Apps (desktop applications only) = \$12.50/mo
- M365 Business Standard (Email + desktop applications) = \$15.90/mo
- Dropbox Biz Std (1TB cloud storage) = \$16.50/mo

So how do you decide? Several factors may help guide businesses.

Try to answer the questions below:

- How do you want to access your email - online Gmail or desktop Outlook?
- Which applications do you use most - Microsoft 365 suite or Google online apps?
- Do you plan to use cloud storage for sharing files with the team - Google Shared Drives or Microsoft Onedrive Shares, or Dropbox?
- Which product the users on your staff are most familiar with - Gmail or Outlook?

- ★ Desktop Outlook application for viewing email, or Outlook online
- ★ Web-based Office applications
- ★ Web conferencing and collaboration
- ★ Onedrive Shares with 1TB of cloud space

 Microsoft 365
